# #RenewYourBeauty: A Scaled Remarketing Strategy to Adapt to New Consumers of Proof-Conscious Gen-Z

Muhammad Ardhan Kawakibi

Rafael Jonathans

Azzahra Putri Agita

Tesalonika Yaspis Rouli

Property of ShARE UB

# Company & Industry Context

## About Dove

A global personal care brand that has grown into one of the world's most recognized and trusted brands for real beauty and body confidence, available in over 150 countries.

| | |
|---|---|
| **Category** | Mass-market personal care (body wash, beauty bar, shampoo, deodorant) |
| **Consumer Promise** | Gentle, moisturizing care with real, inclusive beauty and proven mildness |
| **Competitive Landscape** | Highly competitive with many players offering natural ingredients, clinical benefits, branding, price, etc. |

### Product Categories

**Body Care**

**Hair Care**

**Deodorant**

## Case Overview

### Past Initiatives

**2004** Launched the **Real Beauty campaign**

**2006** Launched the **Dove Self-Esteem Project**

**2025** **Dove Self-Esteem Project** has reached over 92 million young people in 150 countries

**2025** Shifting from traditional ads to community-led content. However, **Gen Z penetration remains critically low at 12% vs. 41% among Millennials.**

| Dove | Competitor | Gen-Z |
|---|---|---|
| purpose-led beauty marketing | don't lead with purpose at all | digitally native |
| | lead with transparency, ingredients, and price | |
| | don't talk about purpose, self-esteem, or beauty standards | ingredient-literate |
| | talk about what is in the bottle, how it works, and why it costs what it costs | marketing-skeptical |

# Making Dove's purpose platform commercially competitive again through data-driven transparency and risk-mitigated expansion

**S**

### $6B Global Market Leader

Dove dominates the body wash category with a 22% market share, built on two decades of strong emotional equity through the "Real Beauty" campaign

**C**

### Rise of Actives & Transparency

A new wave of competitors is winning Gen Z by focusing heavily on ingredient transparency, functional actives, and price

### Rigid Messaging & 12% Gap

Dove is trapped in over-emotional marketing and slower-adapts to skinimalism, creating a critical 12% penetration gap with Gen Z

**Q**

**How can Dove expand its Gen-Z market share to 36% within five years by strengthening its original purpose-led approach to compete with competitors?**

**A**

### Scientific Product Pivot

Introducing clinically certified formulas, minimalist packaging, and live QR code ingredient tracking to build radical product trust

### Authority & Community Activation

Partnering with dermatologists and skin-fluencers, amplified by #ProveYourRealBeauty UGC campaigns to capture Gen Z organically

### Dual-Branding Mitigation

Running distinct functional digital campaigns for Gen Z while fully defending the loyal Millennial base via classic channels

# Why Dove is starting to lose its engagement with Gen-Z's alignment?

| Key Question | Issues | Root Causes | Gap Area | Solutions |
|---|---|---|---|---|
| How can Dove outreach 36% Gen-Z market share to compete with competitors by enhancing its initial purpose led approachments within 5 years? |  Conventional Packaging | 1A "Old Fashioned" design that feels outdated<br>1B Key ingredients of certain products that are not being placed in-front of the products<br>1C Segmented gender-labelling on their products | Packaging still relies on legacy upbringing | Marketing Solutions |
| |  "Performative" Advertisement | 2A The heavily imposed collaboration with celebrities that doesn't relate with Gen-Z's interest relevance<br>2B Portrayal of supermodels brand ambassadors that creates an unattainable standards | The impact of campaign is still estranged | |
| |  Stagnant Campaign Narrative | 3A Shifted subconscious toward other products<br>3B Long-running "Real Beauty" campaign that creates a fatigue towards Gen-Z | Little effort of enhancing purpose claims | |

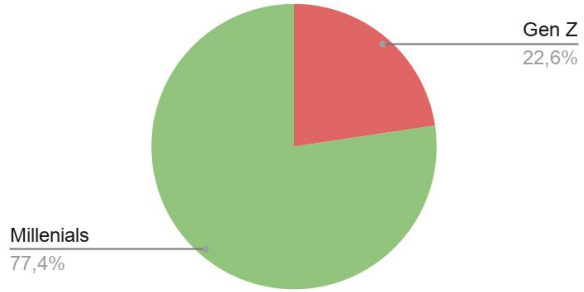

# Rigid emotional messaging and slow functional adaptation have trapped Dove in a critical Gen Z relevance gap

Nearly half of Gen Z consumers actively research skincare ingredients before purchasing (McKinsey, 2024)

## The following TOWS matrix demonstrates how Dove can leverage its internal capabilities to respond to evolving Gen Z consumer expectations

| | Strength | Weaknesses |
|---|---|---|
| **Opportunities** | Leverage the creator to create a educational content about the product ingredients (Chaudhary, Patel, & Vidani, 2023) | Use marketing messages that highlight Gen Z skin issues and actual product benefits (Purohit & Vidani, 2025) |
| | Create a QR code on the back of the packaging to check the compatibility of Dove ingredients with various Gen Z skin types and concerns (Market Intelo, 2024) | Highlight product effectiveness and benefits through transparent ingredient communication (Sachaniya, Vora, & Vidani, 2019) |
| **Threats** | Increase credibility through science-backed ingredients and clinically validated skincare formulations (OTS Dermatology, 2025) | Balance emotional branding with clear communication of product efficacy and functional benefits on packaging (Chaudhary, Patel, & Vidani, 2023) |
| | As a $6B global brand, Dove can leverage its scale and production efficiency to offer premium Gen Z-focused formulations at competitive and accessible price points | Reduce the corporate message and shift to casual language that positions Dove as a functional, practical, and affordable daily soap. |

## The Gen-Z Penetration Gap

(IIDE, 2025)

## Key Takeaways

Gen Z consumers increasingly prioritize ingredient transparency, product efficacy, and skincare education over traditional emotional branding (Purohit & Vidani, 2025). Dove must shift its communication toward scientific efficacy and proven functional value to close this gap.

# Given the competitive market share on personal care products, Dove needs to plan strategic remarketing to strengthen its foundation in the market

Post Dove's 20 years of Real Beauty campaign, consumers behavior tended to shift ...

... while competitors had already implemented the strategy tailored to new behaviors ...

... the strategy implemented by Dove has not yet able to compete with other brands

**Older Phase: 2000–2015**

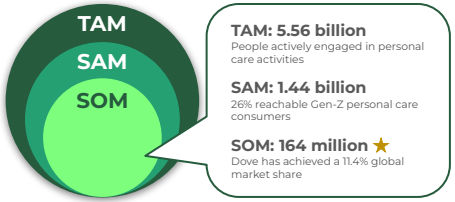

- Greatly influenced by emotional–identity based marketing
- Care less about ingredients & research
- Dominated by the millennial generation, less relevant over time

**Newer Phase: 2016–present**

- More skeptical on general emotional claims
- Greatly influenced by proven research results
- Dominated by the Gen-Z generation, more relevant over time

**Gen-Z's spending power is expected to grow to its maturity, giving a potential flow of $12 trillion by the end of 2030.** *(Appendix)*

These customer characteristics have a market potential of **164 million potential users!**

## Competitor Analysis

**THE BODY SHOP**

Includes the purpose *"For Dry Skin"* or *"For All Skin Types"* to **ensure complete understanding** of what the product does to consumers

**GRACE AND GLOW**

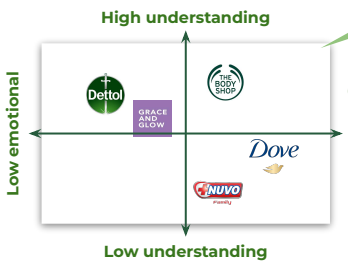

Highlights the ingredients "*With Niacinamide and Collagen*" to **attract ingredients–conscious** consumers

**Dove**

Still maintains the old-school campaign of *"Real Beauty"* while did **less effort to communicate** what the product does to consumers *(Kim & Kim, 2025)*

In this red ocean market, Dove has no direct competitor. Nevertheless, **the slightest uniqueness difference between other brands can lead to significant leading disadvantages.**

## Competitor Positioning Map

**Dominant strategy!**

The best strategy of marketing is **giving the highest understanding and influencing the biggest emotional relevance** to consumers

**Based on the analysis, we can identify the root cause ...**

**Root Cause**

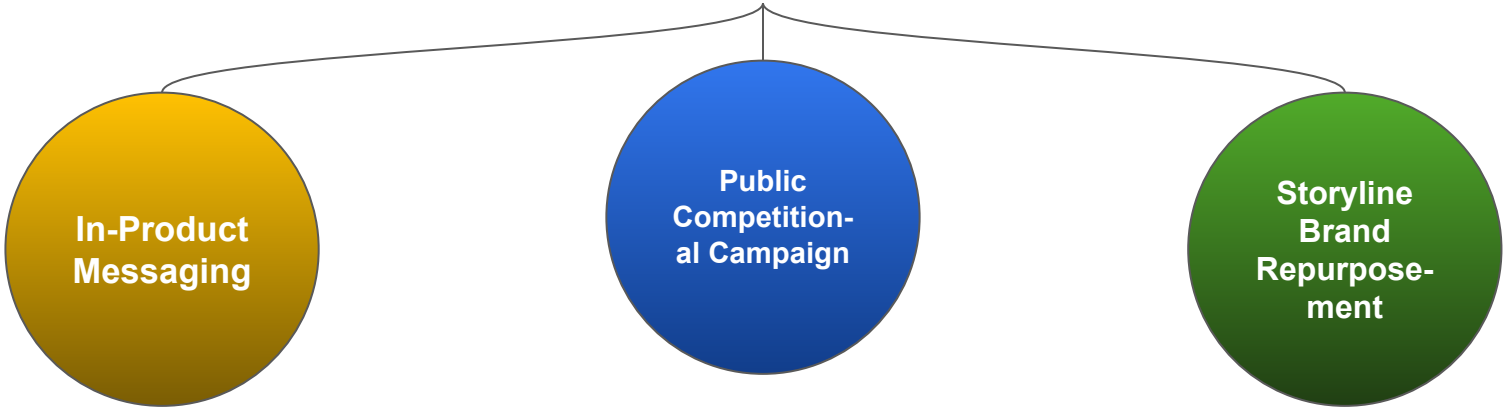

**1C** Ingredients that are **not** being placed in-front of the products

**2A** Collaboration with celebrities that **doesn't relate** with Gen-Z

**3A** The behind-the-scenes life at Dove is still **lightly portrayed**

# #RenewYourBeauty: scaled remarketing strategy to adapt to new consumers of proof-conscious Gen-Z

## #RenewYourBeauty campaign to shifting consumer's behavior

**QR Code Placement** in the back label describing about **What's Inside and Why** the ingredients are included

**Public Online Campaign** such as reels or VT for consumers to **describe their experience** with Dove

**"Renew Your Beauty" Storyline Around the World** to realign consumer's subconscious back to Dove as the original product

**Gaps Solved**

| | | |
|---|---|---|
| **Lack of explanation over the ingredients** | **Exclusive supermodel insecurity** | **Shifted subconscious toward other products** |

# Conventional packaging > exceptional packaging

## Design Comparison with Competitors

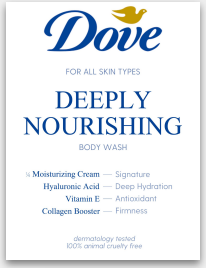

| | |
|---|---|
| Unnecessary visual elements | Sleek and minimalistic elements |
| Gender Labelling packaging | Neutral and universal packaging |
| No key ingredients are being highlighted | Key ingredients are being highlighted |

**Key Takeaways**

**Many Gen-Z** leans on a product that put much care into its identity and also simplicity as an antidote towards the fatigueness of "loud" and "obnoxious" that add no value into its product. (Brown and Abate, 2025)

## Initial Prototype for Redesign

To reintegrate Dove's engagement along with Gen-Z's preferences regarding a brand's identity, we propose a **sleek and minimalistic** redesign

In addition, we also propose a **QR code** to be included unto the back label that leads to a linktree

**Value Outcomes**

- **Refreshing and "Quiet"** redesign that leans on Gen-Z's demands
- **Gender-Neutral** palette to reinforce signals of inclusivity product usage
- Linktree from the QR Code would consist of ingredients transparency, certified dermatologist claims, and social media contents regarding carefully-chosen brand ambassadors and **#RenewYourBeauty** campaign

## Expected Impacts

**35% increase** in yoy social media engagement growth

Gen-Z's **optimism** surge towards Dove's initial purpose led campaigns is rising over time

The deconstruction of Dove's image of being a traditional and legacy brand led to a portrayal of Dove being an **authentic and personalized** brand that would be able to be taken accountability from Gen-Z's perception

# Open participation for public consumers on their Dove experience to attract non-consumers and build competitiveness among users

## Utilise existing campaign U Market Maker for head start

**U Market Maker** is a marketing case competition designed to improve students' marketing skills through series of challenges, held by Unilever Indonesia

**#ScalpFokus** & **#StarttheChangefromtheRoot**

**Total Traffic**
**8.000+** participants
**1.000.000+** likes
**15.000.000+** views
**±2.000.000** impressions

Approximately **90% of UMM participants are Gen-Z,** this number is crucial for our objective of achieving bigger Gen-Z market share

**Impact**

**For participants:**
Opportunity to entry UFLP (MT)*

**For the company:**
Efficient recruitment phase

**94% of Gen Z report using at least one social media platform per day in 2025.**

With more Gen-Zs aware of the brand, we came closer to achieving a 36% market share of Gen-Z that also means **leading the market in the next 5 years.**

**through talent-pool*

## Continuation to #RenewYourBeauty

**To achieve our objective, we can shift the purpose of the campaign:**

Marketing campaign to find potential UFLP candidates

Marketing campaign to **promote #RenewYourBeauty**

**Flow:**

1. Consumers use Dove products
2. Consumers tell story about their experience with Dove on Instagram
3. Consumers post their video using unique hashtag such as **#RenewYourBeauty**
4. The organizers assess the work using the listed hashtag **#RenewYourBeauty**
5. The organizers gradually announce the **leaderboard** or **top liked** in the official brand account

**FINAL**
At the end of the program, organizers announce the winner and **the winner gets a reward.**

**Potential rewards**

- **Cash incentive** or equivalent
- **Talent pool** for Unilever Future Leaders Programme (UFLP)
- **Special mention or repost** on Unilever official page

## Expected impacts

- ✅ **Thousands of creative video that indirectly advertises Dove**
- ✅ **Platform for small creators to showcase their contents**
- ✅ **Increase in awareness among Gen-Z viewers**
- ✅ **Trendsetting and leadership amongst various trends**

Historically, on a mere 5.000 participants could reach up to

**8.437.500**

Gen-Z viewers!

*or 1 : 1.687 content-to-views rate*

*"A massive 82 percent of Gen Z trust a company more if **the images used in their advertising are of actual customers**"*

# Blending influencers and medical validation to drive high-impact Gen Z awareness & attractiveness

## Objectives

**What?**

Despite owning a $6B+ brand equity, Dove's focused on the legacy 'Real Beauty' narrative has created a critical disconnect with Gen Z, failing to promote products that align with current Gen Z functional trends (Jonwal, 2025).

**How Does Gen Z View Products Today**

Gen Z no longer looks at the 'Big Name' of the brand, but instead looks directly at "What's in the bottle" (McKinsey, 2024)

Gen Z demands the real results, not only the marketing of the product (Purohit & Vidani, 2025)

## Execution

To maximize the impact of the marketing campaign, we designed an execution strategy that combines influence, credibility, and expert validation. The campaign will be supported by three key voices:

### Influencer

**Amanda Zahra**

1M followers
4.5% engagement rate

853.2K followers
7.4% engagement rate

(The Influencer Marketing Factory, 2026)

Captures Gen Z's attention through relatable, aesthetic, and trend-driven content on TikTok and Instagram.

### Dermatologist

**dr. Adi Satriyo, Sp.D.V.E, FINSDV**

International Dermoscopy Society

European Academy of Dermatology and Venereology

Provides professional validation by explaining the product's ingredients, benefits, and safety.

### Doctor Creator

**dr. Kamila Jaidi, MARS, Dipl. AAAM**

427k followers
5.3% engagement rate

3.6M followers
7.6% engagement rate

(The Influencer Marketing Factory, 2026)

Bridges medical expertise & social media communication by delivering expert knowledge in a simple, engaging, & easy-to-understand way.

## Expected Impacts

**Total Reach View**

~1.277.200

~1.201.954

~7.663 clicks

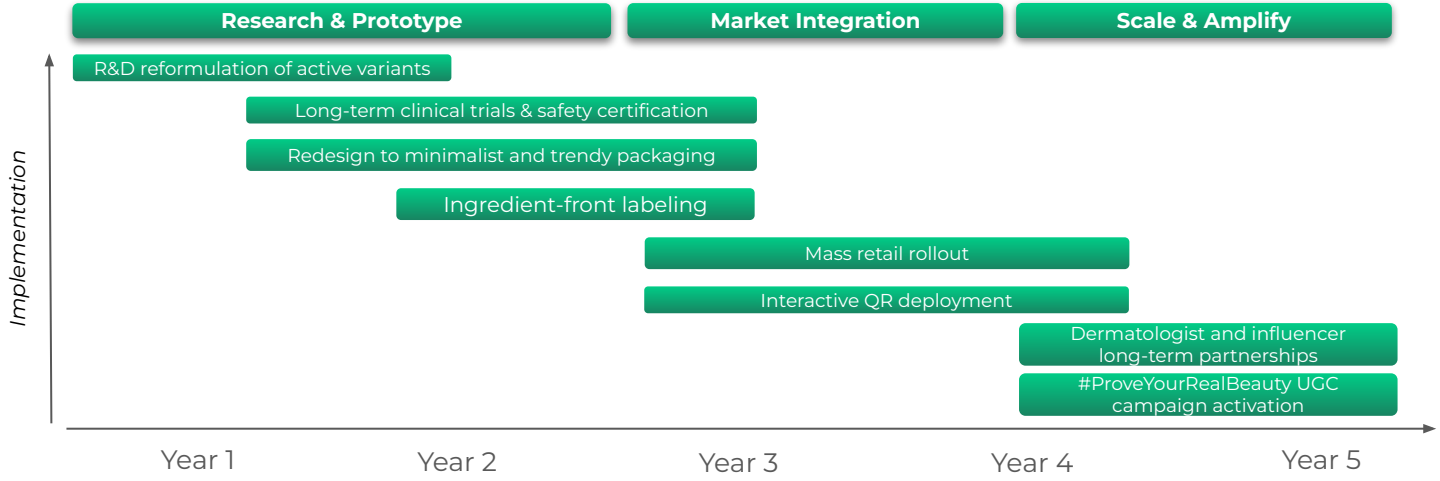

~10.096 clicks

Makes Dove feel more relevant, modern, and naturally part of Gen Z's daily self-care routine.

Builds trust because the product message is supported by an expert who understands what is inside the bottle.

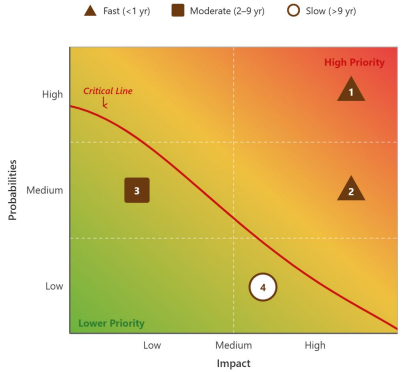

Makes product education more approachable, credible, and engaging for Gen Z audiences.

# The feasibility of implementing our strategy is reviewed by designing a long-term action plan and a comprehensive risk mitigation plan

## The Target Metrics

1. Clinically certified formulas
2. Minimalist packaging design
3. Live QR & front-Labeling
4. Organic Gen Z Community

## The Risk

01 The loyal customers feel abandoned due to the focus on Gen Z

02 Gen Z is skeptical and accuse Dove of polished claims

03 Delays in distribution of new packaging products on retail shelves

04 Inflated reformulation and packaging replacement costs

## The Mitigation

Separate Classic campaigns (conventional media) & active variants (digital Gen Z)

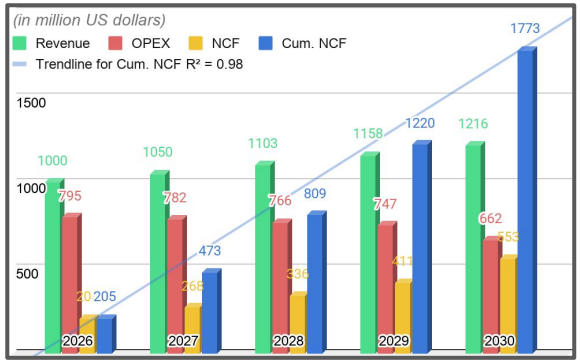

QR code formula that acts as an emphasis where the message of the brand being put on the face of the product (Market Intelo (2024)

Distributing new products based on regional areas and prioritizing stock in e-commerce first.

Mass production efficiency and divert advertising budget to organic UGC

# Given the strategy #RenewYourBeauty, Dove can realize its concrete implementation with a measured financial performance

## Financial Feasibility Analysis

| | |
|---|---|
| **NPV - 2030** (Net Present Value) | **$ 709.9 mio** |
| **IRR** (Internal Rate of Return) | **28.43 %** |
| **ROI** (Return on Investment) | **47.24 %** |
| **Payback Period** | **34 months** |

## Conclusion

| | Identified Pain Points | Answers | Gap Solved |
|---|---|---|---|
| In-Product Messaging | **Lack of explanation** about what's the ingredients for that keeps consumer skeptical | QR placement in the back of the product that **shows research** about dermatological effect of certain ingredients | 1A, 1B, 1C |
| Public Competitional Campaign | **Insecurity** in between consumers that focus on supermodels as their beauty standard | Public content creating campaign that platforms anyone to **describe their experience and influence others to confidence** | 2A, 2B |
| Storyline Brand Repurposement | Old-schooled Real Beauty campaign **aren't adjusted to current trends** among Gen-Z consumers | Real Beauty campaign was kept but the **communication flow are tailored** to fulfill Gen-Z expectations | 3A, 3B |

# Expected Impacts (Total Reach View & Clicks)

**Reach View = Total Viewers (Last 14 Days) / Total Number of Videos**

**Amanda Zahra on Instagram**

$$\text{Reach View} = \frac{1.200.000 + 1.400.000 + 1.000.000}{3} = \frac{3.600.000}{3} = \mathbf{1.200.000}$$

**Amanda Zahra on TikTok**

$$\text{Reach View} = \frac{693.400 + 313.200 + 2.300.000}{3} = \frac{3.306.600}{3} = \mathbf{1.102.200}$$

**dr. Kamila Jaidi on Instagram**

$$\text{Reach View} = \frac{10.400 + 92.300 + 10.100 + 196.000}{4} = \frac{308.800}{4} = \mathbf{77.200}$$

**dr. Kamila Jaidi on TikTok**

$$\text{Reach View} = \frac{6.233 + 14.900 + 10.100 + 65.900 + 19.900 + 14.700 + 16.800 + 649.500}{8} = \frac{798.033}{8} = \mathbf{99.754}$$

**Total Reach View**

**Amanda Zahra & dr Kamila Jaidi on Instagram**

**Total Reach View =** 1.200.000 + 77.200
**= ~1.277.200**

**Amanda Zahra & dr Kamila Jaidi on TikTok**

**Total Reach View =** 1.102.200 + 99.754
**= ~1.201.954**

**Clicks = Average CTR x Reach View**

**Instagram Average CTR = ~0.6%**

**TikTok Average CTR = ~0.84%**

**Amanda Zahra & dr Kamila Jaidi on Instagram**

**Clicks =** 0.6% x 1.277.200 = **~7.663**

**Amanda Zahra & dr Kamila Jaidi on TikTok**

**Clicks =** 0.84% x 1.201.954 = **~10.096**
